

The Mini Gallery

A Miniature Gallery in the MCAD 3D Shop
Small Art for Big Ideas

The Mini Gallery is a renovated tool locker in the 3D Shop. The purpose of the Mini Gallery is to show the beauty in the small things. Applicants are encouraged to explore tiny artwork from many directions: found object, new work, miniature replicas, etc.

Artist's Name(s): _____

Major: _____

Year: _____

Please attach a short (500 words or less) exhibition proposal and 3-5 images of current artwork.

Things to consider:

- The application process is open to current MCAD students, staff and faculty.
- The gallery space is 10.5" x 16.5" x 10.25" so space is very limited and the proposed show should be scaled to fit this space as if it was a full sized gallery. Please stop by the shop to see the space for yourself.
- Please consider keeping show and artwork titles short.
- The applicant must be available for install and deinstall. 3D Shop staff will be available for assistance.
- Shows will be up for 1-2 months depending on interest.
- The Mini Gallery curator and 3D Shop Staff will review applications. Selected artists will be notified by email.

Please submit applications to the 3D Shop curator at:

mmiller@mcad.edu
